THE END

1. we couldn't afford a holiday abroad this year, so we decided to have a day-trip to Blackpool instead.
As you can see, I still managed to get a fabulous tan.
How? — Let my photos tell the story...

3. We arrive in Blackpool. Typical weather, but Mum and Dad manage to find a dry spot!

8: Fortunately, the force of the explosion flung me out to sea where I landed on the QE II and had a free round-the-world cruise. Some days it pays to be pimply!

ARE YOU A PLONKER?

Not sure, huh? Well, find out with this amazing **PLONKER DETECTOR**! The Plonker Detector is a six-sided 'Spinner' (The kind of thing that can be used instead of a die if you stick a pencil through the middle). The spinner is divided into six sections numbered 1 to 6. Just stick the **PLONKER DETECTOR** onto the spin card, shove a pencil through the middle, and spin it. Then check your score with the table below.

SCORE:

1-6: If you've gone to all this trouble to see whether you're a plonker or not, then you certainly are one! (Never mind - you can use the spinner instead of a die when playing Ludo or any other feeble board game you like!)
No Score: Either you're too thick to work out the instructions for making the **PLONKER DETECTOR**, or you're too lazy to bother! Still, at least you're not a plonker!

timperley bike race

hello readers..... i had planned a fantastic bike race round timperley today.... and then my mum said i had got to go and do all the shopping. ("i'll give you bike race" she said)

well....no way was i going to cancel the ace bike race....so i made the shopping part of it and killed two of them birds with one great big fantastic stone....and it was even more very very exciting to race in.

infact....i've made a cut-out game so you can play it to see just how exciting..... "very very exciting" actually is! Thank you.

here's the very very simple rules

first of all choose which cyclist you want to be. (transfer the puppets are not very good bike riders so i am sure to win).

then place all the shopping list cards face down and mix them up then all pick a list each.

then place all the cyclists out-side my house on the start square (see the board on page 24 & 25 in the centre of F this fantastic summer special)

you will need to push a dice out of your monopoly set and you then take it in turns to move round timperley trying to land on the shops selling the items on your list.

ie if on your list it says "budgie bell" (1) then when you land on (1) you can cross it off your list.

sometimes you will have a choice of a few shops to buy from ie "sweets" (5)(6)(14)(17) so you only need to land on one of these to cross it off.

if you come to a junction you may choose which way you wish to continue.

you may also choose which direction you wish to move after you have thrown the dice.

the winner is the first player to get back to my house with all the items ticked off the list.

(you can also write out your own lists with more on for a longer game).

cut-out cyclists

stick the cyclists onto card then cut them out and glue the two sides together and fold out the base as shown here - maybe get your mum or dad to help you.

the puppets are not on their bikes properly as i had to tape them on as they are only cardboard.

cut-out shopping lists.

stick this page onto plain card first...then cut-out the shopping list cards.

you must use plain card as the backs of the shopping lists must all look the same so that when you place them face down....you can't tell which list is which. if you are now ready to play...turn to page 24 for the board.
